To determine your amount to pay:

1. Find your family's size. Family size is defined by the IRS to be the number of family members including parent, spouse, and dependents. A dependent is someone who meets all of the following criteria: 1) is the son, daughter, stepchild, foster child, brother, sister, stepbrother, stepsister or a descendant of any of them; 2) is under the age of 19, OR under the age of 24 and a student, OR any age and permanently and totally disabled; 3) did not provide over half of his or her own support last year; 4) is not filing a joint income tax return; and 5) lived with a responsible person(s) for more than half of the year.
2. Move down the correct family size column to the box that has your range of monthly income (round to the nearest whole dollar).
3. From that box move to the far left to the Percent to Pay column. This is your Percent to Pay.
4. This percent is multiplied by the cost of your family's services received each month.
5. Your payment amount will not be more than the cost of services provided to your family.

NOTE: The Percent to Pay figure only applies to the state's costs for services which have a fee. Family Cost Participation does not apply to services that AzeIP is obligated to provide at no cost under Federal Law.
